## Places 2 Go

**Tarangire National Park:** This park is home to an abundance of elephants. You will see these enormous creatures travel in families and you surely will not miss the extraordinary care they take of their young. The elephants tend to travel in packs and in the same paths as they have taken year after year. When they see your trucks coming closer they will gather around their young to protect them and lead them on their way.

**Lake Manyara National Park:** Picture lush woodlands and the beaches of the Rift Valley Lake where giraffe, elephants and wildebeest enjoy an endless supply of water. You will often see these enormous animals in the water, sitting, sipping or just cooling off. Due to this unique habitat, there are thousands of bird species able to live in the forests and the ultimate site-seeing prize of this area is the tree-climbing lion.

**Ngorongoro Crater Game Drive:** Today you will descend to the floor of the crater: The Ngorongoro Crater is a sunken volcano, or better termed the largest intact volcanic caldera. The view from the crest of the crater will provide you with an expansive sight of the entire crater, which spans 260 square Km, and the rim is 2,400m high. This sunken volcano is home to a permanent array of wildlife and it is home to the "Big 5": the lion, leopard, buffalo, rhino and elephant. The Black Rhino is rare to spot, but be sure that if one group sees one, word will travel and you will have a great chance at this beautiful creature.

**Serengeti National Park:** The Serengeti is the setting for so many wildlife documentaries with good reason. Imagine endless land of acacia trees, baobab trees, African grasses, wildebeest, zebras, gazelles, giraffe and amazing weather. The Serengeti boasts staggering numbers of giraffe, eland, zebra, wildebeest, lions, elephants, Thompson's gazelles, buffalo, 500 species of birds, Topi, and Grant's gazelle.

## People 2 Meet

**Project Zawadi Site Visit (Nyamuswa area):** During your journey, Access 2 Tanzania will facilitate a site visit to our nonprofit partner, Project Zawadi, in Nyamuswa (Mara Region - 2 hours west of the Serengeti). This region is where the core work of Project Zawadi is done. Our guides not only provide logistical support, but also act as translators and cultural ambassadors for the group. For more information about Project Zawadi visit [www.projectzawadi.org](http://www.projectzawadi.org).
